Who We Are

THERMOSAFE BRANDS, a strategic business unit of Tegrant Corporation, is the leading provider of temperature assurance products and testing services.

We provide our customers innovation through design and manufacturing of temperature assurance packaging components and temperature testing solutions. ThermoSafe Brands manufactures more than 180 stock ThermoSafe® Insulated Shippers in expanded polystyrene and polyurethane.

Trained experts at ISC Labs have provided personalized service since 1989 that includes testing, qualifying, and recommending packaging, exclusively designed to surpass client needs and expectations.

Our stock and custom-designed containers have also strengthened relationships, solved packaging challenges, and improved the multiple communications touch points corporations encounter on a daily basis.

Major Markets

THERMOSAFE BRANDS offers the largest selection of packaging components, thermal engineering and testing services for the pharmaceutical, biotech, medical, clinical and diagnostic lab markets. ThermoSafe's breadth of products for cross-country and international bulk shipments provides the right container for your products, application and logistics constraints.

Products Include:

ThermoSafe® Insulated Shippers
PolarPack® refrigerant gel packs
U-tek® phase change materials

- Nomadic® Pre-Qualified Shippers- maintains refrigerated temperatures of 2° to 8°C up to 48 hours.
- ThermoSafe® Medical Transporters- provides easy transport and temperature control for sensitive samples and biological specimens.

- ThermoSafe® Durable Transport containers-maintain the cold chain without mechanical refrigeration.
- ThermoSafe® Diagnostic Shippers- flexible kits comply with all shipping regulations.

Services Offered

THERMOSAFE BRANDS has 11 dedicated manufacturing plants and testing facilities. As part of Tegrant Corporation, we have a network advantage that allows us to service our customers from more than 30 strategic locations throughout the United States, Mexico and Puerto Rico.

We build value-added solutions to meet your time and temperature parameters and that is how we make the world ThermoSafe. Call us with your most challenging transport questions, 1-866-484-4392.
