Who We Are

ACCUPAC, THE LEADER in liquid contract manufacturing, serves the world's largest pharmaceutical and consumer products companies. We manufacture, fill and package a wide range of consumer commodity, over-the-counter and prescription products. Accupac can get your liquids, creams, lotions, pastes, ointments and gels in bottles, tubes and jars to store shelves cost-effectively and on-time.

Accupac's strengths lie in our expert ability to handle all of your liquid contract manufacturing needs while offering superior customer support. When you entrust us with the manufacturing of your product, we will care for its production from development to delivery. We know it's all about customer satisfaction—your satisfaction.

Major Markets

WORKING WITHIN A FDA AND CGMP environment, Accupac can handle the manufacturing of your most complicated over-the-counter and prescription (Rx), consumer commodity and medical device products. We specialize in:

- Oral Care Products – including toothpaste and mouthwash
- Topical including skin care, sanitizers, health and beauty care items, sunscreen and liquid soaps
- Rx liquid pharmaceuticals
- New product launches
- International distribution
- Unique packaging solutions

Services Offered

WE ARE SMALL ENOUGH TO BE a responsive and dedicated partner, but large enough to support the needs of Fortune 500 companies. These businesses rely on us to be an extension of their own facilities and have made Accupac their partner of choice. Our services include:

- Total Customer Support
- Complete supply chain management
- Highest-level quality assurance
- State-of-the-art analytical and microbiological labs
- Customized contract manufacturing
- Specialized packaging
