## Who We Are

WHETHER OUTSOURCING PACKAGING activities, launching a new product, looking for physician sample capacity, identifying a home for unique competencies or conducting short run packaging such as stability tests, we move in lockstep with your evolving needs providing you with speed and direction to meet your goals. We offer you VelocitySolutions™, a collection of valuable capabilities and competencies, which includes high speed bottling and blistering, unit-dose tube filling, carding and cartoning as well as other unique package designs and processes intended to improve the patient experience. All of this is driven by a group of experienced people who you can trust to develop concepts, manage projects and deliver results.

Our environmentally controlled, state-of-the-art contract packaging facility is conveniently located in the center of pharmaceutical development and manufacturing (Bethlehem, PA). Packaging rooms have individual air-handling systems and humidity control for specific requirements.

## Services Offered

SERVICES FOR ORAL SOLIDS, ORAL LIQUIDS, semi-solids, parenterals, devices and other pharmaceutical products include:

- Solid-dose bottle packaging
- Blister packaging (FFS)
- Liquid/semi-solid tube, vial and bottle filling

- Unit dose tube packaging
- Pouching and over-wrapping
- ComplySolutions® line of patient-compliance packaging
- Parenteral packaging, including cold-chain management
- Kit assembly
- Controlled substance packaging
- On-site cold storage
- Stability, clinical trial and other short-run, quick-turn packaging

## Regulatory Accreditations

- cGMP standards
- DEA licensed, class II through V
- FDA audited
- ISO 9001, 14001, 18001

We are part of Alcan Global Pharmaceutical Packaging offering integrated multi-material packaging solutions in the areas of pharmaceutical and medical flexibles, plastic bottles, caps and closures, specialty cartons, glass tubing, vials and ampoules, as well as contract packaging. Through the integration of our packaging component divisions, our innovative packaging design infrastructure, and the broadest collection of primary and secondary packaging services, we optimize the solutions within even the most demanding projects.

Take a moment to learn more about VelocitySolutions™, a collection of valuable capabilities, services and competencies to help you achieve your pharmaceutical packaging goals. Contact us today!
