## Who We Are

ANDERSON PACKAGING is a leading supplier of contract packaging services for the pharmaceutical, medical, and consumer products industries. Since 1967, Anderson has grown steadily by providing imaginative packaging solutions while maintaining a record as one of the most dependable suppliers in the contract packaging industry. By combining leadership in advanced technology and project management with small-company attention to customer service, Anderson has remained the supplier of choice for pharmaceutical manufacturers and distributors nationwide.

Anderson Packaging has recently completed a state-of-the-art 260,000 square foot plant expansion to accommodate growth in its contract pharmaceutical packaging business. The facility will provide added on-demand capacity for packaging services in thermoformed blisters, horizontal and vertical form-fill-seal pouching, high speed bottling, and secondary packaging offerings including heat seal carding and other compliance prompting packaging options.

In-house package development, Child Resistant testing management, and commercialization is a specialty at Anderson. Particularly notable is the development of the CIAB<sup>™</sup>, Compliance In A Bottle, and the IntuiDose<sup>™</sup> child resistant and senior friendly compliance prompting packages. The unique design combines special unit dosing instruction with intuitive opening and the security and durability of a bottle.

## Major Markets

PHARMACEUTICAL, medical, health and personal care, and consumer products manufacturers and distributors.

## Services Offered

ANDERSON PACKAGING offers a complete range of packaging solutions, including high-speed Uhlmann UPS-4 form-fill-seal blister packaging lines with foil forming, blister cards and packs, high-speed bottling, thermoform-fill-seal pouching of powders, solids and liquids, automatic cartoning and glue tipping, overwrapping, and shrink wrapping, along with custom assembly and secondary packaging. Specialized services include Schedule 2-5 pharmaceutical packaging; package development, including innovative design of child-resistant and patient-compliance prompting features; process development, including in-house tooling design and manufacture; and process and cleaning validation design testing. Anderson maintains one of the most progressive process, facilities, and validation programs in the contract packaging industry.

Anderson Packaging Laboratory Services features a brand new 3,100 square foot, state-of-the-art facility offering analytical, microbiological, and stability testing.

Anderson operates seven facilities in Rockford, IL, totaling more than 1 million sq. ft. Separate facilities allow segregation and security for proprietary customer processes or incompatible products. Modern facilities house state-of-the-art, high-speed, high-capacity packaging lines in tightly controlled GMP operations. Anderson's facilities are environmentally controlled, including primary packaging rooms with low-humidity control and independent air handling.
