Who We Are

ATL (AD TAPE & LABEL) located in suburban Milwaukee specializes in track and trace technologies, multi-panel booklet labels, custom die-cut components, disposable medical devices, and product labels. Our Quality Management System is based on several standards: ISO 9000; QS-9000; ISO 13485; and 21 CFR 210, 211, and 820. Every pharmaceutical label, complex medical device, and security label to be manufactured in our facility has a systematic review. This includes APQP (Advanced Product Quality Planning) for specifications, materials, tooling, control plans, performance qualifications, and batch inspection records. "Travelers" and "Hold Points" assure line clearance, product integrity, and cGMP compliance throughout the manufacturing process.

Major Markets

ATL IS A FULL SERVICE contract manufacturer for the pharmaceutical and medical device industries worldwide.

Services Offered

ATL offers the follow services:

- Security labels with multi-layer track and trace technology (overt and covert) including 2D barcodes, serialization, and invisible digital forensic markers
- Multiple-panel booklet labels (3 to 35 pages), extended content labels & RFID "Smart Labels"
- Custom die-cutting, printing, pouching, cold sealing and packaging
- Island placement for transdermal and placebo patches
- Engineering assistance in product design and development
- Cost effective prototypes
- FDA registered, cGMP compliant
