Who We Are

BASED ON THE EXPERTISE OF B. BRAUN, one of the world's leading healthcare providers, the OEM Division supplies system-built outsourcing solutions to the healthcare industry.

The B. Braun OEM Division offers a wide range of products and services for pharmaceutical and medical device companies. The product portfolio comprises:

- Pharmaceutical solutions for infusion, irrigation therapy and volume replacement as well as injectables and anesthetics
- Medical devices for fluid and infusion therapy
- Products for disinfection and hygiene

The B. Braun portfolio spans the whole healthcare value chain and provides high quality and product safety.

Major Markets

B. BRAUN OEM SERVES the pharmaceutical and medical device industry worldwide. With production sites in over 50 countries worldwide our customers benefit from direct global access.

In implementing projects for our customers, we consider each and every aspect of each and every market – from product and production standards to legal provisions and user habits.

Services Offered

B. BRAUN OEM PROVIDES complete outsourcing knowledge. Our project management teams are the experts for individual customer ideas.

- Product variation and combination: customized kits and products with modified characteristics
- Pharmaceutical contract manufacturing: innovative production technologies, different container types and a matching portfolio of system components
- Common development: design and manufacturing of medical device products as well as galenic preparations in hydrous solutions and lipid emulsions

Along with the additional support like analytical services, regulatory support and a professional customer and logistic service B. Braun OEM is able to provide system-built solutions that meet the customer's requirements from the idea to the successful market launch.
