*Bilcare GCS (Americas):* Vince Santa Maria, CPA, President

*Bilcare GCS (Europe):* Dean Billington BSc, CChem FRSC, Acting President and Technical Director

*Bilcare GCS (Asia):* Ajit Dubhashi, President

## Who We Are

Bilcare GCS serves the global pharmaceutical and biopharmaceutical industries with clinical trial materials support, services and complete project management.

Our services for solid, semi-solid, liquid, DEA (CI-V) and biotech clinical trial materials (CTM) satisfy a broad range of requirements from pre-formulation research and development, manufacturing, analytical services and clinical supplies packaging and labeling to IVRS, QP services, controlled-temperature (cold chain) CTM storage, worldwide distribution, and returns and destructions accountability.

Our integrated approach provides you with seamless service to support your drug throughout the entire clinical trial lifecycle. We combine our industry experience and our total clinical supply chain service and delivery to provide smart, efficient and innovative solutions. The result — service and quality beyond compliance, so that you can count on the highest quality clinical supplies delivered on time, every time.

## Facilities

Bilcare GCS supports customers from an integrated network of manufacturing sites and expanded distribution and warehousing facilities across the globe — with major operations in the Americas, Europe and Asia.

Our U.S. operation is FDA-registered and DEA-licensed for controlled substances Schedule I-V. Bilcare also has an MHRA-licensed European location in Wales, UK. Bilcare's footprint extends to Asia with a facility in Pune, India.

Globally, we provide best-in-class services for clinical supplies management, research and distribution in more than 50 countries.

Recent enhancements to the U.S. facility include 26 state-of-the-art packaging rooms, new high-speed blistering technology, upgraded large-scale bottling line and tripling the capacity of the facility's ambient storage capacity. Expanded pre-clinical and early-stage development capabilities include upgraded fluid bed granulation and capsule-filling technology.

In Wales, capital investments include a new high-speed blistering line, expanded cold chain and controlled drug storage, and expansion to 13 primary and secondary packaging rooms.

Our facility in India has expanded its packaging and storage capabilities and can now manufacture, package, and distribute CTM.

## Services Offered

Bilcare has core expertise in:

- Formulation development
- Analytical & research services
- Clinical manufacturing, packaging & labeling
- IVRS/IWRS
- Global logistics & distribution
- Reconciliation & destruction services
- QP services
- In-sourcing
