Who We Are

CATALENT PHARMA SOLUTIONS is a leading provider of advanced dose form and packaging technologies as well as development, manufacturing and packaging services for pharmaceutical, biotechnology and consumer health companies. Catalent applies its local market expertise and technical creativity to advance treatments, change markets and enhance patient outcomes. Catalent's proprietary drug delivery and packaging technologies enable customers to achieve their desired clinical and market outcomes, and are used in many well-known products.

With experience in more than 100 countries, extensive knowledge of the pharmaceutical, biotechnology and consumer markets, and a global facility network that spans five continents, Catalent is well positioned to serve you, wherever you do business.

Services Offered

Development:

Catalent offers a full range of product development services, such as pre-clinical support, API development, analytical services, drug delivery development, clinical manufacturing, packaging and regulatory consulting services. We have expertise in inhalation development, and can offer innovative biologic cell-line development using our proprietary GPEx® technology.

Drug Delivery:

We are the world leader in drug delivery systems. Our technologies include: soft gelatin capsules, Vegicaps® Soft capsules; Zydys® fast-dissolve dosage form; oral modified release technologies; SECURE-VIAL™ stoppered vial delivery system; and a range of inhaled technologies.

Manufacturing:

We provide manufacturing for nearly every major dose form on the market today. Along with our proprietary dose forms, we also manufacture traditional oral, sterile, and inhaled dose forms. We also produce biologics for pre-clinical and clinical studies.

Packaging:

Catalent is one of the largest providers of contract packaging services to the pharmaceutical industry. Globally positioned, our packaging services include commercial packaging for all dose forms and the supply of printed components. We specialize in new product launch support and are the recognized leader in the packaging of biotechnology products, and the design and development of innovative compliance packaging and novel unit-dose formats. Our award winning proprietary designs include RxBarrier+™ for oral solid medications, DelPouch® for liquids and creams, and DelStrip® for thin film strips.
