Who We Are

FOUNDED IN JANUARY 1998, CHEMIC Laboratories, Inc. is a contract chemistry organization, FDA registered and DEA licensed, servicing the pharmaceutical, specialty chemical, biotech and medical device industries. Chemic offers a complete range of contract services including bioanalytical method development, validation and sample analysis, CMC analytical development and validation, extractables/leachables analysis, cGMP organic synthesis (\leq kg scale) and formulation, small scale manufacturing, ICH stability programs and routine analytical testing. Chemic also offers a line of high purity excipients, manufactured through proprietary methodology

Major Markets

CHEMIC LABORATORIES, INC. IS LOCATED in Canton, MA and serves a broad range of global clients in the pharmaceutical, specialty chemical, veterinary, biotech and medical device industries. Chemic is committed to developing long term strategic alliances with our clients while providing full-service cGMP and GLP pharmaceutical development, contract analytical and manufacturing services.

Services Offered

WE OFFER A COMPLETE RANGE OF contract analytical and manufacturing services including:

- QC Analytical Testing
- ICH Stability Programs

- Bioanalytical Method Development, Validation and Sample Analysis
- CMC Analytical Development and Validation
- Extractables/Leachables Analysis
- cGMP Organic Synthesis and Formulation
