## Who We Are

CONFAB LABORATORIES HAS PROVIDED excellence for close to 30 years as a pharmaceutical development and manufacturing organization (CMO). Privately owned, providing high quality services to customers worldwide, mainly focused on manufacturing of prescription and OTC drugs. Confab also produces nutraceutical (dietary supplements) and veterinary products.

Our mission is to get your product to Market faster and easier by providing flexible and value added manufacturing solutions.

CGMP compliant: in July 2006, Confab Laboratories was successfully inspected for a second time by the US-FDA!

## Major Markets

CONFAB'S PRIMARY MARKET FOCUS are the U.S. and Canada. We also serve customers in South America, Europe and Asia. Confab also has an extensive OTC line of products for the private label market.

## Services Offered

OUR EXPERIENCED DEVELOPMENT TEAM provides project management in through product development for pre-formulation, formulation, scale-up, technology transfer, and commercial production services.

Our scientific services include an analytical laboratory extensively equipped for pharmaceutical testing of raw materials and finished products, in house validation services, regulatory affairs, narcotics management and all usual quality system management.

Confab offers a wide variety of manufacturing capabilities such as granulation, solid dosage compounding, different types of coating, creams, ointments, nasal sprays, syrup suspensions and liquids.

Packaging operations handle solid dosage, filling of liquids in Bottles with automated quality inspection systems (AQAI), aluminum and plastic tube filling plastic unit dose, non-sterile drinkable glass ampoules and cold form and thermo formed online printed Blisters and cartonning with AQAI.
