## Who We Are

CONSUMER PRODUCT TESTING CO., INC. (CPTC) is a 33 year old product testing laboratory designed to provide a full service GMP/GLP/GCP testing operation for the pharmaceutical, nutraceutical, medical device, cosmetic and specialty chemical markets. Our capabilities include services in the analytical testing of raw materials, method development and validation, stability per FDA/ICH guidelines, and batch release. Analytical capabilities include HPLC, GC, AA, IC, TOC, dissolution and wet chemistry according to USP/EP/BP/JP and other regulatory guidelines. Also, Microbiological, Toxicological and Clinical services, including the largest independent SPF/Phototoxicity/Photoallergy laboratory, are available, providing a "conception to completion" service program unmatched in the industry. Our facility provides over 45,000 square feet of testing clinics and laboratories located in northern New Jersey. Recently CPTC has developed new testing services for the Antiperspirant market, providing both monographed and pilot studies to that industry.

## Major Markets

CPTC PROVIDES ANALYTICAL, microbiological, toxicological and clinical services to the pharmaceutical, nutraceutical, medical device, cosmetic and specialty chemical industries.

## Services Offered

### Analytical Chemistry

- Method Development and Validation
- Stability (FDA/ICH and custom)
- Raw Material Analysis
- Batch Release

### Microbiology

- Preservative Efficacy
- Microbial Limits by USP/CTFA
- Plate Counts
- Antibiotic Assays
- Sterility Validation
- Mutagenicity
- Disinfectant Testing per AOAC

### Toxicology

- Acute Toxicology
- In-vitro Methodologies
- Cytotoxicity

### Clinical

- Dermal Irritation and Sensitization
- OTC Clinical Studies
- Sunscreen
- Antiperspirant
