Who We Are

EMERSON RESOURCES' REPUTATION as a dependable, dynamic, flexible, and pragmatic organization has been built on the core concepts of excellent service, superb quality and complete client satisfaction. The Emerson mission is to deliver value-added service, ingredients and expertise to the pharmaceutical and biotech industries.

Major Markets

EMERSON RESOURCES' GLOBAL CLIENTS include branded, generic and OTC pharmaceutical companies, virtual and emerging pharmaceutical research organizations, raw material suppliers, equipment manufacturers, and intellectual property attorneys.

Services Offered

EMERSON SCIENTIFIC AFFAIRS provides delivery system development, extensive expertise, and technical service in:

- Preformulation and compatibility studies
- API and excipient characterization
- Controlled-release technology
- Oral solid dosage forms
- Oral liquids and suspensions
- Creams, lotions, gels, and ointments
- Poorly soluble compounds
- Controlled substances
- Analytical methods development and validation
- Stability studies
- Preclinical supplies
- Phase I–II clinical trial supplies
- Scale-up
- In-plant troubleshooting

We offer flexible manufacturing suites and mobile equipment that allow for custom setups and complete control of your project from start to finish.

Ingredients

INNOVATIVE MATERIALS TECHNOLOGY provides value-added coating ingredients such as Plasacryl™, an acrylic coating system additive which de-tackifies, prevents gun-clogging and increases production efficiency; and Marcoat, a superior seal coating which acts as a moisture and oxygen barrier, and masks taste and odor. Visit innovationbythekilo.com

Expertise

EMERSON SCIENCE CENTER offers innovative, experience-based training in: Formulation Development, Operator Training, Science-Based Tablet Development, Experimental Design, and Solid Dosage Forms for Non-Technical Professionals. Our programs emphasize hands-on learning where participants interact one-on-one with instructors. Sessions are limited to small student groups to maximize learning, and our instructors have the latitude to tailor courses that better suit individual learning styles.

Facilities

Emerson Resources, Inc. is located in its own well-equipped, 46,000 ft² building in Norristown, Pennsylvania. Strategically located in the heart of "Pharma Country," Norristown is at the crossroads of all major transportation routes. The building houses a development laboratory, a cGMP pilot plant, an ingredient manufacturing facility, and a training classroom. The pilot plant is certified Class 100,000 for manufacturing Phase I–II clinical supplies. The facility has a controlled substance license, Class II–V.
