Who We Are

IMPORTEFAB is a well-established contract manufacturer, specializing in the manufacturing and packaging of semi-solid and liquid products. Our mission is to provide customer-driven manufacturing services of the highest quality with products that will meet and exceed current and evolving client's expectations. Our objective is to maintain our position as a reliable reference point in the manufacturing of quality pharmaceutical products: essentially, a benchmark for modern, efficient production, assured through the use of highly performing equipment. IMPORTEFAB is FDA approved, accredited under cGMP pharmaceutical standards and is certified ISO 9001:2000.

Major Markets

IMPORTEFAB provides contract manufacturing and packaging services to clients located in Canada and the United States for prescription and OTC products.

Services Offered

IMPORTEFAB offers manufacturing capabilities ranging from laboratory to pilot plant batches to scale-ups. Our computer-controlled jacketed manufacturing tanks provide variable speed mixing with double-sided agitation and temperature control features. Our packaging operations handle plastic, laminate and metal tubes; plastic and glass bottles; jars, pumps and nasal sprays. Importfab's manufacturing services are summarized under our FAST PHARMA program:

Flexibility: at all levels of manufacturing and development

Accreditation: FDA, cGMP, ISO 9001:2000

Services: quality, confidentiality, flexibility and on-time

Technology: quality control and computerized procedures
