- Protein purification skids
- One aseptic vial-filling machine with fully disposable fluid path

Who We Are

LAUREATE PHARMA, INC. IS A FULL SERVICE contract manufacturing organization (CMO) with headquarters in Princeton, NJ. The company is dedicated to supporting the development and commercialization of pharmaceutical products for pharmaceutical and biopharmaceutical companies. The facility is FDA registered and inspected.

The company provides a wide range of product development and manufacturing services from process design and development to full-scale cGMP production, purification and aseptic filling, as well as corresponding testing, validation, analytical services and regulatory support. The primary focus is on two active segments of the biopharmaceutical industry: monoclonal antibodies and recombinant protein products.

We grow mammalian cells in stirred-tank and single-use bioreactors for production of biopharmaceutical proteins, and purify them by state-of-the-art semi-automated chromatography systems. We also offer modular development programs as well as complete manufacturing and filling operations.

- 57,000 sq.ft. cGMP manufacturing facility
- Process development laboratories
- Stirred-tank and hollow-fiber bioreactors (up to 2,500 L)

Services Offered

- Cell-line optimization and medium optimization
- Transfection, cloning, and selection to create new cell lines
- Process development (both upstream and downstream) and pilot-scale bioreactor runs
- cGMP production and purification
- Protein modification and conjugation
- Product formulation development and aseptic filling into vials
- Analytical method transfer, development and qualification
