Who We Are

PILGRIM SOFTWARE, INC. is a world-leading provider of Enterprise Compliance and Quality Management solutions for highly regulated industries. Pilgrim has pioneered effective, integrated software solutions for the Life Science industries, as well as non-FDA regulated and manufacturing industries. More than 300 customers globally, and more than 750,000 end-users, work with Pilgrim every day to meet the diverse challenges of the world's highly competitive marketplace. Pilgrim's fully Web-based solutions help those businesses centrally manage domestic and international operations to ensure product safety and compliance, reduce manufacturing costs and improve customer satisfaction.

Major Markets

PILGRIM DELIVERS EFFECTIVE, integrated software solutions for the Life Sciences (Medical Device, Pharma/Bio, Blood/Tissue) industries, as well as manufacturers in the automotive, aerospace and defense, and other non-FDA regulated industries.

Services Offered

PILGRIM SOFTWARE PROVIDES industry-leading Enterprise Compliance and Quality Management solutions. Pilgrim's fully Web-based solutions are built on Microsoft's advanced .NET platform and XML technology. With no client-side code to install and maintain, Pilgrim's solutions can be quickly deployed and validated and provide a low total cost of ownership.

Pilgrim's solutions are highly scalable to meet your expanding enterprise needs and are highly configurable to meet specific business requirements. A true global solution, Pilgrim's applications are multi-language capable and include universal date/time and other culture-sensitive options.

Pilgrim's solutions are designed to easily integrate with cornerstone applications and provide the following capabilities for your business:

- Risk Management
- CAPA Management
- Document control
- SOP enforcement
- Engineering collaboration
- Internal and external audit management
- Complaint handling
- Change management
- Employee certification and training management
- Equipment calibration and maintenance
- Supplier quality management
- Advanced quality planning
- Regulatory submissions

Through its integrated platform, Pilgrim has advanced the progress and profits of many of the world's top Life Sciences and manufacturing organizations. Operating in highly regulated industries, these businesses face daily risks and challenges, but Pilgrim's software solutions are helping them manage their business processes so as to ensure industry and regulatory compliance, reduce manufacturing costs and enhance overall quality and customer satisfaction.
