Who We Are

RICERCA BIOSCIENCES, LLC IS THE ONLY North American CRO to offer the unique IP-INDSM concept to pharmaceutical and biotechnology companies. The 40+ acre site encompasses all discovery and development services required to bring IP, in the form of a target or drug candidate, to a complete IND submission. The ability to perform both chemistry (medicinal chemistry, process chemistry, cGMP API kilo-lab and pilot plant production, complete analytical) and biology (DMPK, ADME, full toxicology, safety pharmacology, animal efficacy models, bioanalytical) as well as report writing and regulatory services at one site makes Ricerca the provider of choice for virtual, small, and medium-sized pharmaceutical companies seeking a successful IND submission.

Major Markets

RICERCA SERVES WORLD MARKETS from its facilities in Concord, OH.

Services Offered

Lead Optimization Programs
